13 November 1981

MEMORANDUM FOR: Senior Interdepartmental Group - Intelligence

FROM: [REDACTED]
Director, Intelligence Community Staff

SUBJECT: Background Material for Meeting on FY 83 NFIP Budget

25X1

1. The attached material is forwarded for your consideration prior to the 18 November SIG(I) meeting on the NFIP budget. The DDCI will be looking for advice on whether, as users, you think that the proposed budget adequately meets specific objectives and whether you would suggest different priorities.

2. Tab A contains a paper entitled, "Objectives for the 1983-1987 National Foreign Intelligence Program." The paper is composed of two parts: a section on Perspectives, which outlines the challenges facing the Intelligence Community in the near term; and a section on Objectives, listing nine categories of program objectives for the 1983-1987 period.

3. At Tab B is a brief statement about those items in the FY 83 budget that address each of the nine objectives. Although included in a separate Tab here for ease of presentation, these statements will be integrated into the text at Tab A as part of the discussion of each objective. The entire paper will serve as the basis for the analysis that accompanies the budget presented by the DCI to the President.

4. Tab C is an initial attempt at a consolidated NFIP ranking. It is a direct integration of the Program Managers' Recommended Programs without any modifications resulting from DCI decisions on particular issues.
